10V10 like skyrim with guns. Game of all the years. Don't miss out on this hot release.. 10V10 like skyrim with guns. Game of all the years. Don't miss out on this hot release.. Biggest waste of money ever. Don't buy. Instead invest your time in writing an angry letter to the devs telling them that this abortion of a game should never have been released and they should switch careers. This game is really, really bad. Something about it rubs me the wrong way.....I don't even know how this game got in my library, but I want to burn the bookshelf now.. Dear Mr. Developer,

Your game sucks.

It doesn't want you to stop playing. If you have queued for a match you can't cancel out. So if it's stuck looking for one, you have to whip out the task manager cause alt-f4 isn't working. Just don't buy it.. 15 euro for a game that has God awful hit detection, repetitive and boring combat, and abysmal ideas all together like having my bloody PC name as my characters name. Played one game and already I'm regretting it. Absolutely bloody shameful. Glad I got this as a gift because holy mother of god I pity anyone that bought this sorry pile of♥♥♥♥♥♥♥♥at full price. Avoid like the plague.. I liked the game other than nobody plays it, so online in dead.

Would be so much fun with updates and more people online. Looks good on the images and trailers, buuuuuuuut the execution is not so good.

The controls are too complicated, and the game gets repetitive after 10 minutes.

Maybe with some patches... This game was terrible. I played it for about five minutes and decided I'd rather stick a fork in my eye. The controls are difficult at best, and convoluted at worst, please do not support this company by buying a game that feels like Shaq-Fu met with Gladiator. Thank you.. So my friends and I wanted to play this game together. We sat in the matchmaking for at least 40 minutes. When we were able to FINALLY connect, the game is trash. The hit detection is\u2665\u2665\u2665\u2665\u2665 The game is terrible. The people who made the game know it's trash. Stay away. Stay far far far far far farrrrr away. I am so sorry you even read this. You wasted your time. Please, spend your money on a better game. This game is not even a game. It's\u2665\u2665\u2665\u2665\u2665water.
